Very efficient to drive sheet piles with minimum disturbance.

DISCLAIMER: EK125HH can not be used as a crane. Please refer to user manual for proper usage.

High performance on concrete pile driving

APPLICATION & TECHNICAL SPECIFICATIONS

The **EK125HH** is a hydraulic pile driving rig mounted on CAT323 Next Gen base unit. This rig is equipped with a 4 ton (3.6 m.ton) free fall hydraulic impact hammer. The hammer's free fall feature has many advantages:

- Operated by gravity = half as much maintenance over the hammer's life cycle.
- Less power required of the carrier unit = a lower horsepower requirement and less fuel consumption.
- No need for a rebound ring = greater durability no matter what is your specification for bearing capacity even if you're driving to refusal.
- Better rate ratio between piston weight and total hammer weight = higher energy from a smaller rig.
- Two external lift cylinders = controlled height, quick and easy to visually inspect and access for maintenance.

EK125HH is a self-erecting compact one-load rig = easy transport and quick set up for operation.

HYDRAULIC HAMMER MONITORING SYSTEM

- Accurate laser height control;
- Remote access and online tracking;
- Touch screen or mouse operation;
- Special support for PDA test.

PILE CAP

The pile caps are designed and manufactured according to the customer need.

EXCLUSIVE SAFETY MODE

When activated, the Safety mode on MHControl+ can prevent the major cause of cylinder premature wear-off: the mechanical shock between the drive cylinder arm and the weight.

Eccentric caps to drive piles facing the wall

Driving 50 ft timber pile

Very compact hydraulic hammer

One load transport with quick set up

FOUNDATION EQUIPMENT

THE COMPANY

CZM is headquartered in Savannah, Georgia, USA. For over 40 years, we have specialized in manufacturing foundation equipment. We design and customize models for many different drilling applications including Drill shafts, CFA/cased CFA, Micropile and anchoring, piledrive and hydraulic hammers and soil improvements. We are a Caterpillar OEM (Original Equipment Manufacturer).
